

Gdańsk, 16th of April 2016 r.

**Vice-Rector
for Cooperation and Innovation**

L.dz. RW-202/2016

Dear Colleagues,

It is my great pleasure to invite you on behalf of the Baltic Sea Region University Network and Gdańsk University of Technology to participate at the conference "University Campus Management and Development - Contemporary Trends and Future of University Campuses", that will be held in Gdańsk on June 2-3, 2016.

The conference shall gather international campus management experts, architects and university managers, who shall share and exchange their ideas and experience to answer the following question: how to modernise the historical campuses without losing their "soul" and character and how to revitalise the campus area in line with modern university requirements.

The conference shall start on Thursday, June 2, in the morning and it shall last until Friday, June 3, 1 p.m.

Enclosed you may find the conference programme and the Registration Form.

The conference shall be held in English.

I would like to kindly ask you to forward our invitation to all the colleagues at your university that might be interested in the subject of the conference.

I wish to welcome you warmly in Gdansk in June!

Best regards

Vice-Rector
for Cooperation and Innovation

Professor Jacek Małkinia
